

March 2021

We were 84% of target for food donations, thank you for everyone who stopped down and for Onyx Property Management for encouraging occupants of our buildings to support the drive. It was so encouraging to see strangers making donations! We were 117% of our targeted online, check and cash donations (\$3,635, \$420, & 40 respectively) so we actually had our best year ever!

This was our tenth year, the calculations Island Harvest uses to convert pounds and dollars into meals has changed. Next year we will go to their new calculations. The important things to realize is that we have generated over 14,000 pounds of food and over \$25,000 since we began. That's something to be happy about!
